

***Colpocoryphe* sp.** (TH347)

Colpocoryphe → Phacopida → Calymenina → Calymenoidea → Calymenidae

Provenance : Morocco; "Battou"

Formation : ?Taddrist Fm

Age : Lower Ordovician, ?Floian

Details : Complete specimen from a nodule. I'm placing it with its own number because of its extreme largeness. Specimen obtained thanks to Patrick Catto. About "Battou"...that's the closest village to the find place, which is actually on Jbel Rhyat, some 12 km SE from that village.

Bought on : 03-04/00/2018

Bought at : Paleis des Congres, Liege

Event : Intermineral 2018.
