

Neseuretus tristani (Brongniart & Desmarest, 1817) (TH178q)

Neseuretus → Phacopida → Calymenina → Calymenoidea → Calymenidae

Provenance : France, Sarthe, Saint-Denis-d'Orque

Formation : ? Fm

Age : Upper Ordovician

Details : Relatively complete internal mould...from a site (and district) whence I didn't have this species from yet.

Gotten on : 27-28/08/2022

Gotten at : Salle Omnisports, Bernissart

Event : Bernissart 2022
