

Parabolina spinulosa (Wahlenberg, 1818) (TH430)

Parabolina → Olenida → Olenina → Olenoidea → Olenidae

Provenance : UK; North-Wales, Gwynedd, Dolgelly

Formation : ?Fm (Merioneth Series)

Age : Cambrian

Details : Large posterior part eroded, and some damage on the cephalon. I know, not a pristine specimen, but then I am rather interested in systematics (where even smaller bits count).

Bought on : ?/12/2019

Bought at : CC 't Spoor, Harelbeke

Event : Lithos 2019
