

Kaskia chesterensis (Weller & Weller *in* J.M. Weller, 1936) (TH541)

Kaskia → Proetida → Proetina → Proetoidea → Proetidae

Provenance : USA; northern Alabama, Franklin County, shoreline of Cedar Creek Lake

Formation : Bangor Limestone Fm, Chesterian Zone

Age : Carboniferous (Mississippian)

Details : Incomplete pygidium (some damage on middle axial part and on right lobe). Addition to the collection thanks to Sébastien Piérard whom gave it to me after I prepped it. Second detail image was made after moistening the stone.

Gotten on : Early July 2021

Gotten at : Sart-Tilman

Event : June-July prep sessions
