

Bradocryphaeus vanherlei van Viersen & Bignon, 2011 (TH148)

Bradocryphaeus → Phacopida → Phacopina → Acastoidea → Acastidae → Asteropyginae

Provenance : Belgium; Nismes

Formation : Moulin Liénaux Fm, Ermitage Member

Age : Upper Devonian, Middle Frasnian

Details : In the images, the imprint looks like an internal one...but we're actually dealing with the (partial) external imprint of a pygidium (imprint of anterior axial part missing); stone was originally broken, then glued.

Found on : 15/09/2011

Found at : Nismes, Belgium

Funny uh, how the lighting angle makes the same negative suddenly appear to be a positive?
