

***Parabarrandia crassa*** (Barrande, 1872) (TH403)

***Parabarrandia*** → Asaphida → Asaphina → Cyclopygoidea → Nileidae

**Provenance** : Spain; Cuidad Real, Calzada de Calatrava

**Formation** : ? Fm

**Age** : Middle Ordovician

**Details** : In the first picture, you see the external imprint of the trilobite (right side of stone), a silicon mould of the imprint, the internal imprint of...a bivalve? (both on left side in image), and several small brachiopods. Detail images were done with different lighting angles in effort to bring out more surface details.

**Bought on** : 27/06/2019
