

Xyphogonium hispanicum (TH521)

Xyphogonium → Proetida → Proetina → Proetoidea → Tropidocoryphidae

Provenance : Spain; Palencia, Fuentes Carrionas

Formation : Abadia Fm

Age : Devonian, Emsian

Details : Almost complete (most of right lobe is missing) specimen (as internal mould...the site was obviously bad for the preservation of trilobite exoskeleton – see also (TH516) ***Leonaspis* sp.**, (TH517) ***Koneprusia* sp.** & (TH518) ***Otarion* sp.**) in “hunting” position.
