

Greenops grabaui Lieberman & Kloc, 1997 (TH620)

Greenops → Phacopida → Phacopina → Acastoidea → Acastidae → Asteropyginae

Provenance : US, New York State, Erie Co., Alden

Formation : Ledyard Shale of Ludlowville Fm

Age : Late Middle Devonian (Givetian)

Details : Complete enrolled specimen on a minimum of matrix. Sorry for the less-than-proper quality of the images. I usually do my (outside) photography on a sunlit day (taking advantage of dispersed light in counter-action), and that particular day the weather was simply lousy (cloudy all day)!
