

Neseuretus tristani (Brongniart & Desmarest, 1817) (TH178r)

Neseuretus → Phacopida → Calymenina → Calymenoidae → Calymenidae → Reedocalymeninae

Provenance : France; Maine-et-Loire (49), Segré-en Anjou Bleu, La Mine Bleue)

Formation : ? Fm

Age : Ordovician, Llandeilian

Details : Yet another ***N. tristani***? Yes...but again from a site I didn't have one from yet! And, it's pyritized (apparently typical for the site)!!! Backside of the piece on second page shows possibility for additional prep.

Bought on : 7-8/10/2023

Bought at : Val Li Pierrys, Rue du Val, Vien (Anthisnes)

Event : Paleoforum 2023
