

Dactylocephalus cf. dactyloides (Hsue in Hsue & Ma, 1948) (TH342)

Dactylocephalus → Aasphida → Asaphina → Remopleuroidea → Hungaiidae

Provenance : Morocco; "Zagora"

Formation : ?Fezouata Fm

Age : Lower Ordovician

Details : Complete specimen. A larger specimen was available (at higher price though)...which slightly differed in the spine arrangement of the pygidium (the spines being geared more outward, and somewhat curved inward).
