

***Paciphacops logani*** (Hall, 1860) (TH564)

***Paciphacops*** → Phacopida → Phacopina → Phacopoidea → Phacopidae → Phacopinæ

**Provenance** : USA; Oklahoma, Clarita

**Formation** : ? Fm

**Age** : Lower Devonian

**Details** : Eroded and partly exfoliated specimen in near-completely enrolled condition. From old collection (bought as *Phacops logani*). Additional info from own files (not on purchase ID-card) Clarita is in Coal County; the species (which is not as common as Oklahoma's other *Paciphacops*, *P. campbelli* from the Haragan Fm) is found in the Bois d'Arc Fm (and therefore slightly younger than the latter named).

**Bought on** : 13/11/2022

**Bought at** : De Mixx, Herselt

**Event** : PaleoTime 2022
