

Triarthrus eatoni (Hall, 1838) (TH136a + TH136b-c)

Triarthrus → Olenida → Olenina → Olenoidea → Olenidae → Triarthrinae

Provenance : Canada; ?

Formation : ? Fm

Age : Upper Ordovician

Details : Cranidium (TH136a) and (partial) thoracopygidium (TH136b) (of larger size than I'm used to seeing of this species, say even genus) on separate pieces [second piece holding also an additional partial cranidium (TH136c)]. Add to collection thanks to Georges Devoile. [info from Biolib.cz : In Canada, the species occurs in the Blue Mountain Fm and Pointe-Bleue Shale Fm of Quebec, Ontario; in the US, it's found in the Whetstone Gulf Fm of New York State]

Found on : 20/06/2023

Found at : VE-2, Sainte-Marie-aux-Mines

Event : SMaM 2023
