

## ***Hollardops* sp. 2** (TH129)

***Hollardops*** → Phacopida → Phacopina → Acastoidea → Acastidae → Asteropyginae

**Provenance** : Morocco; "Alnif area"

**Formation** : ? Fm

**Age** : Lower Devonian

**Details** : Complete specimen in "hunting" position. According to the vendor, it's a fairly uncommon trilobite, recognized by a specific spinosity of the pygidium. However, preservation of the exoskeleton is usually not as good as in the layers just above.

**Bought on** : 10/05/2015

**Bought at** : Antwerp Expo

**Event** : Minerant 2015
