

Xyphogonium cf. trautensteinensis (G. K. B. Alberti, 1969)(501)

Xyphogonium → Proetida → Proetina → Proetoidea → Tropidocoryphidae

Provenance : Morocco, ?

Formation : ?Fm

Age : Devonian, ?Emsian

Details : All Czech species of the genus being of Emsian age [source : biolib.cz], I've assumed the same for this Moroccan one.
